FILL IN THE BOXES

Define/List how you will integrate each step in your problem solving process addressing the challenge in the scenario.

2

Think about the community in which this scenario takes place. Consider the questions below. (Answer in a separate document.) Then, develop your own guiding questions to integrate both steps into your process.

HISTORY & HEALING

What's the history of this community (including current community make-up)? What do people think about this problem? What do I think? What's the role of generational exclusion and trauma?

POWER DYNAMICS

What power and/or privilege do I hold over the community being impacted by the situation (and intervention)? Who has decision-making power in the community and problem solving process?
